HONGIK UNIV.

HONGIK INTERNATIONAL SUMMER SCHOOL 2023

Welcome to Hongik University

Where Industry meets Art

Hongik University was founded in the first year after Korean independence, and has contributed to making Korea what it is today through educating creative and practical-minded professionals highly needed by society. This primary objective that we have consistently pursued has naturally led Hongik University to become known all around the world as an icon projecting a Korean image of a place where 'Industry meets Art'.

Each established at significant points in Korea following a central axis, Seoul's Main Sang-su dong campus and Daehakro campus, Hwaseong's Techno-Art campus, and Sejong City's Sejong campus all function with unique specialized roles. Through this comprehensive four campus network, our school's founding ideology is upheld, and once again reflects Hongik University's strong lead forward into the future.

HONGIK UNIV.

HONGIK INTERNATIONAL SUMMER SCHOOL 2023

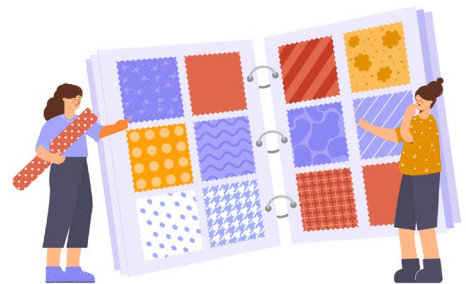

1. Period: July 3th ~ July 14 th 2023 (Total 10 days)

2. Courses

A student can choose one course between 'Industrial design' and 'Fashion design'
Please refer to the attached files for more details of each curriculum.

<Industrial Design>

- A practical course for students majoring in design and engineering to create a new future eco-friendly mobility by reconstructing existing bike parts as a team.
- A design-engineering convergence project that verifies the agile process by completing a 4Wheel E-bike from sketch to design model in two weeks in collaboration with designers specializing in the industry.

<Fashion Design>

A two-weeks intensive course in fashion basics for students interested in fashion design with additional activities to immerse yourself in Korean culture. The course allows students to express individual design visions through learning the basics of fashion process from research, design, illustration, textile manipulation, realization and presentation. These areas are supported by seminars, dynamic workshops, unique field trips and creative studio practices to produce highly creative and individual outcome.

Only Hongik, arguably the most prestigious Arts University in Korea, can give you a thorough immersion in fashion design with Korean culture. Its unique campus, located in fashionable Hongdae area and highly experienced tutors will provide students with an unmatched opportunity.
