Bussiness Startups

Gachon Cocone School

Through the Gachon Cocone School,
we offer full support for student
business startups

We opened the 'Gachon Cocone School' to support students' business startups during their college years. A specialized curriculum and mentorship of startup specialists will be provided to support students. The university is also establishing an entrepreneurial environment to provide an ecosystem wherein students can start their own businesses while still in school. We will support our students to help them actualize their novel ideas into businesses and grow them into unicorn enterprises.

Maker Space

**Creating Maker City,
Going Beyond the Maker Space**

Gachon University became the first university in the Gyeong-gi-Incheon region to be selected for the “Maker Space” development project in 2019 by the Ministry of SMEs and Startups(MSS). Maker Space is in the Vison Tower which offers the best accessibility within the campus with a wide space of 1,500m².

Gachon Maker Space is a space that supports innovative creation and startup activities. Gachon University offers a one-stop support system to help students successfully commercialize their creative ideas by organically linking Maker Space with the early startup package support programs. Also, the university offers introductory Maker education and experience programs not only for its students but also for the general public.

A vibrant festival scene in Gachon, South Korea. The image shows a river with a large watermelon float in the center, surrounded by colorful lanterns and people. The background features modern buildings and a tall, colorful tower. The text "Global Gachon" is overlaid in the center.

2023 GIWS Introduction

GIWS Overview

What is GIWS?

Gachon University introduces the Gachon International Winter School (GIWS) program, offering international students a two-week experience in 'K-Culture, worth 3 credits.

K-Culture

The K-Culture program will provide students with a broad introduction to various facets of Korean culture, including Practical Korean Language, Taekwondo, K-POP, and K-Food. Participants will gain a deeper understanding of Korean culture. Inside our classrooms, we will provide various lectures and workshops to introduce Korean culture. Outside our classrooms, we will offer hands-on activities and events where you can experience Korean culture.

Activities to Enjoy

Gachon University is thrilled to present an extensive range of activities for your enjoyment during the GIWS Period.

As an international university, we have experience in offering diverse cultural activities, from enriching field trips to creative crafting sessions.
