

THE UNIVERSITY of EDINBURGH

SUMMER SCHOOL 2024

The University of Edinburgh is the perfect place to broaden your academic and cultural horizons. And what's more, you'll be based in the heart of Scotland's beautiful and historic capital city.

We offer two week credit bearing courses for students with at least one year's experience in a STEM subject at undergraduate level.

Our courses are designed and delivered by experienced and dedicated University of Edinburgh academic staff across a range of Science and Engineering subject areas.

Brand new courses on offer for 2024:

- Sustainable Futures in Energy
- Sustainable Futures in Biological and Environmental Sciences
